

Contract Management

Contract Lifecycle Management

Automate, streamline, and integrate your contract management with Agiloft's Contract Management Suite.

Contracts Made Easy

Agiloft has everything you need to manage the complete contract lifecycle and integrate contract information into existing business processes. With Agiloft you can easily link contracts with related accounts, vendors, opportunities, tasks, obligations, products, assets, and more.

Agiloft is designed to map any business process, from the simplest to most complex, without programming. Start with the award-winning, out-of-the-box system and customize with your own templates, workflows, custom fields, and rules. Integrate with customer support, CRM, sales automation, asset management and more.

Awarded Editors' Choice by
PC Magazine in
2016, 2017, 2018 and 2019

"The most customizable
contract management
system on the market."

Benefits

- **Keep contracts at your fingertips** with a centralized repository, a powerful search engine, built-in OCR, and full text search.
- **Reduce costs and increase revenue** by managing expirations, preventing unintentional auto renewals, and avoiding missed customer contract renewals.
- **Reduce costs of contract maintenance** by automating the contract creation, approval, execution, and renewal processes.
- **Eliminate approval bottlenecks** with automatic notifications and one-click email approvals.
- **Gain insight into upcoming contract renewal costs or revenues** with configurable budget and forecast reports.
- **Ensure that customers have valid support contracts** before receiving service by making contract status visible in support tickets.

Agiloft's feature set offers the power needed for the most sophisticated contract process and requirements.

Features

- **Automated document assembly** includes dynamic print templates, convert to PDF, and PDF merge.
- **Email and SMS integration** provide active notifications at any time, to all your devices.
- **Document versioning and check-in /checkout controls** capture changes to documents and store all revisions.
- **Version comparison** shows redlined changes for documents.
- **Time-based notifications, reports, and dashboards** provide quick access to data in multiple formats.
- **Quick Edit** allows record changes on the fly.
- **DocuSign and Adobe Sign integrations** add secure, legal e-signatures, eliminating the time and expense of gathering physical signatures.
- **Approval workflows** automate complex contract approval routing, including sequential, parallel, and conditional approvals.
- **Granular permission controls** provide precise view and edit access by user group, including dynamic filters.
- **Full audit trail and automatic documentation** make it easy to meet strict audit and compliance requirements, such as Sarbanes Oxley.

Built-in Adobe Sign and DocuSign integrations give you secure, legally enforceable e-signature capabilities, eliminating the time and expense of gathering physical signatures.
